

We build strong kids, strong families, strong communities.

## Fairview Lake YMCA Camps

Fairview Lake YMCA Camps & Conference Center has been serving youth and families since our first camping program in 1915. We have been helping to strengthen a person's spirit, mind, and body through programs that have our members getting back to the basics – physical activity, learning about and enjoying our natural environment, fresh air, social give and take, and FUN!

Our stimulating programs and exceptional staff foster self-confidence, self-reliance, creativity, leadership, empathy, teamwork, resilience, honesty, responsibility, respect, and caring. An "unplugged" community leads to more open conversations, a more relaxed atmosphere, and learning what true friendship is.

### Fairview Lake YMCA Camps 2009 Highlights

- Awarded \$142,000 in financial assistance to 132 children to attend summer camp
- Collaborated with The Cloud Institute for Sustainability Education so we may learn to teach others how to transition to a sustainable society
- Our summer teen "Service Corp" group volunteered 200 hours to local environmental organizations
- Worked with 152 volunteers who logged in more than 7,900 service hours to Fairview Lake
- Purchased 2 all-terrain wheelchairs for physically challenged members
- Sponsored 7 community events such as Grandparents Day, Fishing Derby, Arts Expo and Winter Wonderland

We build strong kids, strong families, strong communities.

**2010 Goal: \$130,000**

*"My daughter has made many sacrifices to help our family through a tough financial time. I really appreciate that your financial assistance program meant that she didn't have to sacrifice the great experience she had at Fairview Lake. She was able to be carefree for three weeks, and that is a priceless gift! She also renewed friendships made the previous year, loved Color War, and I believe she improved her social skills. All of these experiences will better prepare her to meet the challenges of being a teenager. Thank you!"*
